Tiftarea YMCA Winter 2021 Sports Safety Requirements

Here at the YMCA, we promote a healthy environment for your child to play sports. We are putting the health and safety of you and your family first and are doing all that we can to provide a healthy environment. We will however need your help to ensure that we can maintain this healthy environment. We have put together a list of requirements that we ask everyone to abide by while attending an event held by the YMCA.

1. Masks are required. No entry without a mask! (players will not be required to wear a mask while on the court)
2. Temperatures will be taken prior to entry. Anyone with a temperature higher than 100.4 will not be admitted.
3. Maintain a 6 feet Social distance from others.
4. Please only bring your immediate family members (Father, Mother, Siblings) to attend the games/practices.
5. We will also have each teams' spectators sit opposite of their team to help separate spectators. There will also be a home side and an away side marked for clear distinction on which side to sit on. You can determine if you are home or away from the indication on the schedule.
6. We will provide sanitizing stations for individual use.
7. Each player will be required to bring their own bottle and water.
8. Please stay home if your child is showing any symptoms of sickness (100.4 fever, cough, sore throat, vomiting, nausea, diarrhea).

The Mission of the YMCA is to put Christian principles into practice through programs that build healthy spirit, mind, and body for all. We want to build strong kids, strong families, and strong communities.
