Tiftarea YMCA Fall 2020 Sports Safety Requirements

Here at the YMCA, we promote a healthy environment for your child to play sports in. We are putting the health and safety of you and your family first and are doing all that we can to provide a healthy environment. We will however need your help to ensure that we can maintain this healthy environment. We have put together a list of requirements that we ask everyone to abide by while attending an event held by the YMCA.

1. Masks are highly recommended.
2. Maintain a 6 feet Social distance from others.
3. Please bring only your immediate family members (Father, Mother, Siblings) to attend the games/practices.
4. Please bring your own seating to the games/practices. We will not be providing bleachers in an effort to spread participants watching out across the field.
5. We will also have each team and their spectators sit on separate sides of the field. There will be a home side and an away side marked for clear distinction on which side to sit on. You can determine if you are home or away from the indication on the schedule. *Please do not sit behind the soccer goal or in the designated team area as this could be distracting for the players.*
6. We will provide sanitizing stations throughout the fields
7. Each player will be required to bring their own bottle and water. We will have a concession stand selling drinks, but no communal drinking stations.
8. Each Coach will have a list of questions to ask each child before practice/games start.

The Mission of the YMCA is to put Christian principles into practice through programs that build healthy spirit, mind, and body for all. We want to build strong kids, strong families, and strong communities.
